At the heart of learning

## INTRODUCTION

There is a need for today's health professionals to be able to pass on their skills and knowledge to others. This module enables participants to explore mentoring, how people learn, how to teach using a variety of teaching approaches, and how to assess learning. Accordingly, this module will present the principles of mentorship, learning, teaching and assessing, and will explore the clinical learning environment and working relationships with both learners and colleagues.

## AIMS

To enable practitioners working in a range of different work settings to develop their approach to supporting and assessing learning in practice.

To enable practitioners to apply best evidence in practice to promote the development of self and others.

## ENTRY REQUIREMENTS

- Professional Qualification in Nursing, Pharmacy, Dietary, Physiotherapist, etc
- Medical Assistants and any health related profession
